

## Do You Want

### Lower Cost Electricity?

Profit-driven, foreign-owned CMP and Versant charge Mainers 58% more than Maine's consumer-owned utilities.

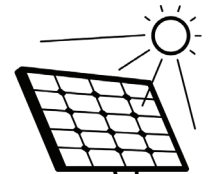

### More Reliable Electricity?

Mainers have the longest and most frequent power outages in the nation with the CMP and Versant monopolies.

### Cleaner Electricity?

For decades, CMP and Versant have blocked clean, locally-produced power. It's time for a utility that is a partner in addressing climate change and growing our economy.

### More Accountable Electric Companies?

One that won't send millions of Mainers' hard-earned dollars overseas to large multinational corporations.

If you do, volunteer with us TODAY to help us get on the 2022 ballot! **Sign up** to support a consumer-owned utility by using the QR code or visiting [ourpowermaine.org/take-action](https://ourpowermaine.org/take-action).
